

LONDON BOROUGH OF BRENT LOCAL PLAN

HEARING AGENDA

DAY 3 THURSDAY 1 OCTOBER 2020

Full day session commencing at 0930

Matter 4

Strategic Transport, Infrastructure and Delivery

Main Issues:

Does the Plan take a justified and suitably evidence based approach to strategic transport, infrastructure and delivery across the Borough?

Is the Plan based on a suitably robust evidence based viability assessment?

Is the Plan and its policies sufficiently positive, consistent with national policy and the London plan in this regard so as to be effective in terms of implementation?

Key Points for discussion

- Approach to strategic transport objectives throughout the Plan – policies BT1 (sustainable transport) and BT2 (parking)
- Status of the Borough Plan
- Infrastructure and delivery of the Plan – requirements of national policy and the phased approach adopted, consistency between the IDP and the housing trajectory
- IDP – school place planning, healthcare and phasing for the Plan period
- Viability – methodology, development typologies used and additional evidence prepared
- AOB
- Action Points

Participants:

London Borough of Brent
Greater London Authority
Highways England
